Project Genesis Master Process

How to Use This Document

Upload this document alongside **MASTER_SME_TEAM_DOCUMENT.md** to any new Manus task. This provides the complete process framework for transforming raw business concepts into investor-ready materials.

Required Reference Document: MASTER_SME_TEAM_DOCUMENT.md (upload both documents together)

Quick Start

To Begin a New Project:

> *"I have uploaded the Project Genesis Master Process and the Master SME Team Document. Please begin Phase 0 with the following opportunity: [describe opportunity or upload voice note/document]"*

To Continue an Existing Project:

> *"Using the Project Genesis framework, we are currently at Phase [X]. Please proceed to the next phase using the SME expert team."*

Process Overview

```
PHASE 0: Voice Note Intake & Scope Alignment
    ↓
PHASE 1: Expert Team Assembly & SWOT Analysis
    ↓
PHASE 2: Deep Dive Research & Gap Identification
    ↓
PHASE 3: Triple Validation & Risk Mitigation
    ↓
PHASE 4: Master Report & Strategic Planning
    ↓
PHASE 5: McKinsey Business Plan Development
    ↓
PHASE 6: Presentation & Funding Materials
    ↓
PHASE 7: Video & Stakeholder Communication
    ↓
PHASE 8: Project Execution & Monitoring
```

Phase 0: Voice Note Intake and Scope Alignment

Trigger

Stakeholder initiates project with voice note, document, or description

Tasks

1. Transcribe voice note (if applicable)
2. Extract key elements:
    - Opportunity description
    - Key stakeholders
    - Timeline expectations
    - Budget parameters
    - Success objectives

3. Pre-populate project intake form
4. Generate scope alignment summary
5. Confirm scope with stakeholder

Deliverables

- [ ] Transcribed voice note
- [ ] Scope alignment confirmation
- [ ] Project intake form completed

Prompt to Use

> *"Please extract the key elements from this opportunity description and create a scope alignment summary. Identify: opportunity, stakeholders, timeline, budget, and objectives."*

SME Team Reference

Reference: MASTER_SME_TEAM_DOCUMENT.md - No experts needed at this phase

---

Phase 1: Expert Team Assembly and SWOT Analysis

Trigger

Scope confirmed by stakeholder

Tasks

1. Select expert team based on project type
2. Customize team composition for specific needs
3. Identify any new expert bios needed
4. Conduct rapid SWOT analysis
5. Generate initial risk register

6. Assign research tasks to experts

Expert Team Selection Guide

Project Type	Core Experts Required
Telecom/Tech	Technology SME, Industry SME (Regional), Financial Analyst, Legal Specialist
Healthcare/Pharma	Healthcare SME, Regulatory Expert, Financial Analyst, Clinical Expert
Consumer/Retail	Marketing SME, Operations Expert, Financial Analyst, Consumer Voice
Real Estate	Real Estate SME, Legal Specialist, Financial Analyst, Regional Expert
Fintech	Technology SME, Financial Analyst, Legal/Compliance, Fintech Specialist

Deliverables

- [ ] Expert team roster with assigned roles
- [ ] SWOT analysis completed
- [ ] Initial risk register created
- [ ] Research tasks assigned

Prompt to Use

> *"Using the Master SME Team Document, please assemble the appropriate expert team for this [project type] opportunity. Conduct a SWOT analysis and create an initial risk register. Reference: MASTER_SME_TEAM_DOCUMENT.md"*

SME Team Reference

Reference: MASTER_SME_TEAM_DOCUMENT.md - Section: Part 2 (SME Expert Team Directory)

Phase 2: Deep Dive Research and Gap Identification

Trigger

Expert team assembled, SWOT complete

Tasks

1. Coordinate parallel expert research
2. Track research task completion
3. Identify emerging gaps and new questions
4. Assign follow-up research tasks
5. Compile findings into integrated analysis
6. Generate gap identification report

Research Areas

Area	Key Questions	Expert Assigned
Market	Size, growth, segments, trends	Industry SME
Competition	Players, positioning, threats	Strategy SME
Technology	Platform, scalability, security	Technology SME
Financial	Model, projections, unit economics	Financial SME
Legal	Regulatory, compliance, IP	Legal SME
Operations	Execution, resources, timeline	Operations SME
Partners	Reliability, track record, alignment	Due Diligence SME

Gap Identification Template

Gap ID	Description	Impact	Priority	Mitigation Required
G001	[Gap description]	Critical/High/Medium/Low	High/Medium/Low	[Yes/No]

Deliverables

- [ ] Research task tracker completed
- [ ] Integrated analysis document
- [ ] Gap identification report
- [ ] Follow-up questions documented

Prompt to Use

> *"Please have the assembled expert team conduct deep dive research on [topic/company]. Track all findings and identify gaps. Each expert should provide findings with references. Reference: MASTER_SME_TEAM_DOCUMENT.md"*

SME Team Reference

Reference: MASTER_SME_TEAM_DOCUMENT.md - Use assigned experts from Phase 1

Phase 3: Triple Validation and Risk Mitigation

Trigger

Deep dive research complete

Tasks

1. Validate all claims through primary SME expert
2. Cross-validate through secondary perspective

3. Triple-check through tertiary perspective
4. Flag any unverified claims
5. Generate validation report with confidence scores
6. Update risk register with research findings
7. Document mitigations for each risk

Validation Framework

Claim Category	Confidence Threshold	Validation Method
Market Claims	80%+	Industry data, analyst reports
Financial Claims	85%+	Model audit, comparable analysis
Technical Claims	90%+	Platform review, security audit
Legal Claims	95%+	Legal opinion, regulatory guidance
Partner Claims	90%+	Reference checks, background verification

Validation Status Badges

Status	Meaning
VERIFIED	Fact-checked, cross-validated, sources confirmed
PARTIALLY VERIFIED	Some validation, needs additional confirmation
UNVERIFIED	No validation yet, requires research
FLAGGED	Conflicting sources or concerns identified

Deliverables

- [ ] Validation report with confidence scores
- [ ] Updated risk register
- [ ] Mitigation strategies documented
- [ ] Chief of Staff sign-off

Prompt to Use

> *"Please have the Chief of Staff conduct triple validation on all findings. Cross-reference claims, verify sources, and update the risk register with mitigations. Reference: MASTER_SME_TEAM_DOCUMENT.md - Part 1 (Chief of Staff Role)"*

SME Team Reference

Reference: MASTER_SME_TEAM_DOCUMENT.md - Part 1 (Chief of Staff Role) and Part 4 (Reference Requirements)

Phase 4: Master Report and Strategic Planning

Trigger

Triple validation complete, mitigations documented

Tasks

1. Generate master report summarizing all findings
2. Identify remaining gaps and open questions
3. Recommend next steps and action owners
4. Create 8-week project plan with timeline
5. Define key performance indicators (KPIs)
6. Escalate critical decisions to stakeholder

Master Report Structure

Section 1: Executive Summary

- Investment opportunity overview
- Key findings and validation status
- Critical risks and mitigations
- Recommended next steps

Section 2: Market Analysis

- Market sizing (TAM/SAM/SOM)
- Competitive landscape
- Customer segmentation
- Go-to-market strategy

Section 3: Business Model

- Revenue streams
- Unit economics
- Financial projections (bull/base/bear)
- Path to profitability

Section 4: Operational Plan

- Organizational structure
- Key roles and responsibilities
- Technology roadmap
- Execution timeline

Section 5: Risk Analysis

- Risk register with mitigations
- Contingency plans
- Governance structure
- Escalation protocols

Section 6: Strategic Recommendations

- Immediate actions (next 8 weeks)
- Medium-term priorities (months 3-6)
- Long-term vision (year 1+)
- Success metrics and KPIs

Deliverables

- [ ] Master report document
- [ ] 8-week project plan
- [ ] KPI dashboard template
- [ ] Stakeholder decision points identified

Prompt to Use

> *"Please compile all findings into a Master Report following the structure in Phase 4. Include the 8-week project plan and KPI definitions. Have the Chief of Staff validate the final document. Reference: MASTER_SME_TEAM_DOCUMENT.md"*

SME Team Reference

Phase 5: McKinsey Business Plan Development

Trigger

Master report approved, strategic direction confirmed

Tasks

1. Develop comprehensive business plan
2. Create detailed operating model
3. Build organizational charts and role definitions
4. Develop financial model with multiple scenarios
5. Create competitive positioning framework
6. Document execution roadmap

Business Plan Structure

Part 1: Strategy and Market

- Business overview and value proposition
- Market analysis and sizing
- Competitive positioning
- Strategic objectives

Part 2: Operating Model

- Organizational structure
- Key processes and workflows
- Technology architecture
- Governance framework

Part 3: Financial Plan

- Revenue model and projections
- Cost structure and unit economics
- Cash flow analysis
- Valuation and exit scenarios

Part 4: Execution Plan

- Roadmap and milestones
- Resource requirements
- Risk management
- Success metrics

Part 5: Investment Case

- Use of funds
- Expected returns
- Exit strategy
- Key assumptions

Deliverables

- [ ] Comprehensive business plan document
- [ ] Financial model (Excel)
- [ ] Organizational chart
- [ ] Competitive positioning framework

Prompt to Use

> *"Please develop a McKinsey-style business plan based on the Master Report. Include all five parts with detailed analysis. Reference: MASTER_SME_TEAM_DOCUMENT.md - McKinsey and Company expert"*

SME Team Reference

Reference: MASTER_SME_TEAM_DOCUMENT.md - McKinsey and Company, Financial SMEs

---

Phase 6: Presentation and Funding Materials

Trigger

Business plan complete and validated

Tasks

1. Create investor presentation deck (20-30 slides)
2. Develop detailed presenter notes
3. Create executive summary (2 pages)
4. Build financial model for investor review
5. Prepare Q&A document
6. Create one-pager for initial outreach

Presentation Structure

Slide	Title	Content
1	Cover	Company name, tagline, date
2	Problem	Market problem and opportunity
3	Solution	How the business solves the problem
4	Market Size	TAM/SAM/SOM with validation
5	Business Model	Revenue streams and unit economics
6	Competitive Advantage	Differentiation and defensibility
7	Go-to-Market	Customer acquisition strategy
8	Team	Organizational structure and key roles
9	Financial Projections	Revenue, EBITDA, cash flow
10	Use of Funds	Capital allocation
11	Milestones	Key execution milestones
12	Risk Mitigation	Key risks and strategies
13	Exit Strategy	Potential acquirers and multiples
14	Investment Highlights	Top reasons to invest
15+	Appendix	Supporting data and analysis

Deliverables

- [ ] Investor presentation deck
- [ ] Presenter notes
- [ ] Executive summary (2 pages)
- [ ] Q&A document
- [ ] One-pager

Prompt to Use

> *"Please create the investor presentation materials following the Phase 6 structure. Use the Storytelling Expert and Visual Design Expert for review. Reference: MASTER_SME_TEAM_DOCUMENT.md"*

SME Team Reference

Reference: MASTER_SME_TEAM_DOCUMENT.md - Storytelling Expert, Visual Design Expert, Investment SMEs

---

Phase 7: Video and Stakeholder Communication

Trigger

Presentation materials complete

Tasks

1. Create explainer video script (3-5 minutes)
2. Generate voice note status updates
3. Create milestone update reports
4. Develop stakeholder communication plan
5. Schedule investor meetings

Video Structure

Section	Duration	Content
Opening	30 seconds	Problem statement and opportunity
Solution	60 seconds	How the business solves the problem
Market	45 seconds	Market size and customer need
Business Model	45 seconds	How money is made
Competitive Advantage	45 seconds	Why this business wins
Team	30 seconds	Key team members
Call to Action	15 seconds	Investment opportunity

Deliverables

- [ ] Video script
- [ ] Voice note updates
- [ ] Stakeholder communication plan
- [ ] Meeting schedule

Prompt to Use

> *"Please create the video script and stakeholder communication materials following Phase 7 structure. Reference: MASTER_SME_TEAM_DOCUMENT.md - Storytelling Expert"*

SME Team Reference

Reference: MASTER_SME_TEAM_DOCUMENT.md - Storytelling Expert, Media SMEs

---

Phase 8: Project Execution and Monitoring

Trigger

All materials complete, stakeholder engagement begins

Tasks

1. Track project milestones against timeline
2. Monitor KPIs and success metrics
3. Update risk register monthly
4. Generate status reports
5. Escalate issues and blockers
6. Adjust plan based on market feedback

Status Report Template

Section	Content
Executive Summary	Overall status, key metrics, critical issues
Milestone Status	Completed, in-progress, upcoming
KPI Dashboard	Key metrics vs targets
Risk Register	Active risks, mitigations, new risks
Financial Status	Burn rate, runway, funding progress
Team Updates	Hiring, changes, capability gaps
Upcoming Priorities	Next 2-week focus areas
Escalations	Critical decisions needed

Deliverables

- [ ] Weekly status reports

- [ ] Monthly risk register updates
- [ ] KPI tracking dashboard
- [ ] Escalation log

Prompt to Use

> *"Please generate a project status report following the Phase 8 template. Update the risk register and KPI dashboard. Reference: MASTER_SME_TEAM_DOCUMENT.md - Chief of Staff"*

SME Team Reference

Reference: MASTER_SME_TEAM_DOCUMENT.md - Chief of Staff, Operations SMEs

---

Phase Transition Checklist

Before moving to the next phase, confirm:

- [ ] All deliverables from current phase complete
- [ ] Chief of Staff has validated outputs
- [ ] Stakeholder has approved (where required)
- [ ] All gaps have been documented
- [ ] Risk register has been updated
- [ ] Next phase tasks are clear
