Expert Team Templates

The 12-Person Team Framework

Every significant project benefits from a diverse team of 12 experts. This framework ensures comprehensive coverage across domain expertise, cultural perspectives, target audience voices, and delivery capabilities.

Core Team Structure

The 12-person team follows a consistent structure regardless of project type. Six roles are fixed, while six roles vary based on project domain.

Fixed Roles (6 positions)

Position	Role	Purpose
1	Project Lead	Single point of accountability, synthesis, coordination
2	GCC Perspective Expert	Local cultural and business context
3	Western Perspective Expert	Global benchmarks and practices
4	Target Audience Voice (Female)	Reality check from intended user perspective
5	Target Audience Voice (Male)	Reality check from intended user perspective
6	Digital Twin (Chief of Staff)	User alignment, preference matching, coordination

Variable Roles (6 positions)

Position	Role Type	Selected Based On
7	Domain Expert 1	Primary project domain
8	Domain Expert 2	Secondary project domain
9	Behavioural/Psychology Expert	Engagement and motivation design
10	Storytelling/Narrative Expert	Messaging and communication
11	Visual/Design Expert	Presentation and materials
12	Strategy/Framework Expert	Structure and methodology

Project Type Templates

Template A: Learning & Development

Use for: Graduate programs, training initiatives, capability building, upskilling projects

Position	Expert	Specialty
1	Dr. Fatima Al-Mansouri	L&D (GCC) - Project Lead
2	Sheikh Khalid Al-Thaqafi	GCC Culture & Business
3	Dr. James Crawford	Western Business Culture
4	Noura Al-Suwaidi	GCC Gen Z Female
5	Sultan Al-Harthi	GCC Gen Z Male
6	Digital Twin	Chief of Staff
7	Dr. Sarah Mitchell	L&D (Western)
8	Dr. Ahmed Al-Rashid	Behavioural Psychology (GCC)
9	Mariam Al-Blooshi	GCC Female Engineering Graduate
10	Creative Director	Storytelling
11	Visual Designer	Presentation Design
12	Corporate: McKinsey	Strategy Framework

Template B: Investment Analysis

Use for: Due diligence, market analysis, investment decisions, portfolio review

Position	Expert	Specialty
1	Warren Buffett	Value Investing - Project Lead
2	Sheikh Khalid Al-Rashid	Gulf Markets & Sovereign Wealth
3	Dr. James Crawford	Western Business Culture
4	Noura Al-Suwaidi	GCC Gen Z Female (consumer trends)
5	Sultan Al-Harthi	GCC Gen Z Male (market trends)
6	Digital Twin	Chief of Staff
7	Ray Dalio	Macro Economics
8	Cathie Wood	Growth & Innovation
9	Risk Analyst	Risk Assessment
10	Financial Modeler	Valuation
11	Visual Designer	Presentation Design
12	Legal Expert	Compliance & Structure

Template C: Marketing & Brand

Use for: Campaign development, brand strategy, market entry, product launch

Position	Expert	Specialty
1	Brand Strategy Expert	Marketing - Project Lead
2	Sheikh Khalid Al-Thaqafi	GCC Culture & Business
3	Dr. James Crawford	Western Business Culture
4	Noura Al-Suwaidi	GCC Gen Z Female
5	Zoe Anderson	Western Gen Z Female
6	Digital Twin	Chief of Staff
7	Consumer Psychology Expert	Buyer Behaviour
8	Dr. Emma Thaler	Behavioural Psychology (Western)
9	Creative Director	Campaign Narrative
10	Visual Designer	Creative Assets
11	Media Strategist	Channel Planning
12	Analytics Expert	Performance Measurement

Template D: Technology & Product

Use for: Software development, product design, tech strategy, digital transformation

Position	Expert	Specialty
1	Tech Strategy Expert	Technology - Project Lead
2	Sheikh Khalid Al-Thaqafi	GCC Culture & Business
3	Dr. James Crawford	Western Business Culture
4	Sultan Al-Harthi	GCC Gen Z Male (tech adoption)
5	Jake Morrison	Western Gen Z Male (tech trends)
6	Digital Twin	Chief of Staff
7	Alex Chen	Western Engineering Graduate
8	Mariam Al-Blooshi	GCC Female Engineering Graduate
9	UX Designer	User Experience
10	Visual Designer	Interface Design
11	Corporate: NVIDIA	AI & Technology
12	Corporate: Meta	Platform Strategy

Template E: Legal & Compliance

Use for: Regulatory matters, contract review, governance, risk management

Position	Expert	Specialty
1	Legal Expert	Law - Project Lead
2	Sheikh Khalid Al-Thaqafi	GCC Culture & Business
3	Dr. James Crawford	Western Business Culture
4	Noura Al-Suwaidi	GCC Gen Z Female
5	Sultan Al-Harthi	GCC Gen Z Male
6	Digital Twin	Chief of Staff
7	Compliance Expert	Regulatory Affairs
8	Tax Expert	Tax Strategy
9	Risk Analyst	Risk Assessment
10	Storytelling Expert	Communication
11	Visual Designer	Document Design
12	Corporate: PwC	Governance Framework

Template F: Healthcare & Wellness

Use for: Health programs, medical projects, wellness initiatives, biotech

Position	Expert	Specialty
1	Healthcare Expert	Medical - Project Lead
2	Sheikh Khalid Al-Thaqafi	GCC Culture & Business
3	Dr. James Crawford	Western Business Culture
4	Noura Al-Suwaidi	GCC Gen Z Female
5	Zoe Anderson	Western Gen Z Female (wellness)
6	Digital Twin	Chief of Staff
7	Medical Specialist	Clinical Expertise
8	Dr. Ahmed Al-Rashid	Behavioural Psychology (GCC)
9	Regulatory Expert	Healthcare Compliance
10	Storytelling Expert	Patient Communication
11	Visual Designer	Medical Materials
12	Corporate: McKinsey	Healthcare Strategy

Team Assembly Process

Step 1: Project Classification

Analyze the project brief to determine the primary domain. This selects the base template.

Step 2: Audience Identification

Identify the target audience to select appropriate Gen Z or demographic voices. For GCC projects, use GCC Gen Z voices. For Western projects, use Western Gen Z voices. For cross-cultural projects, include both.

Step 3: Specialist Selection

Based on specific project requirements, select domain experts from the 290+ available. Consider performance scores and past success on similar projects.

Step 4: Project Lead Assignment

Assign the most relevant domain expert as Project Lead. This person coordinates the team and synthesizes outputs.

Step 5: Digital Twin Integration

The Digital Twin (Chief of Staff) is always included. It ensures alignment with user preferences and past decisions.

Team Coordination

Communication Flow

The Project Lead coordinates all expert inputs. Each expert provides their domain perspective. The Digital Twin ensures user alignment throughout.

Synthesis Process

Individual expert inputs are synthesized by the Project Lead into a coherent recommendation. The Digital Twin reviews for user preference alignment before presentation.

Quality Gates

Before delivery, outputs pass through:

1. Domain expert review (accuracy)
2. Storytelling expert review (narrative)
3. Visual expert review (presentation)
4. Digital Twin review (user alignment)

Custom Team Assembly

For projects that do not fit standard templates, the system can assemble a custom team.

Required inputs:

1. Project domain (primary and secondary)
2. Target audience demographics
3. Geographic focus (GCC, Western, Global)
4. Deliverable format (presentation, report, plan)
5. Special requirements (regulatory, technical, creative)

Assembly logic:

The system matches project requirements to expert specialties, ensuring coverage of domain expertise, cultural perspectives, audience voices, and delivery capabilities.

This framework ensures every project benefits from diverse expertise while maintaining consistency in team structure and quality.
