Celadon Ajman: Complete Investor Presentation

Gamma-Ready Document with Full Content, Design Criteria & Image Suggestions

---

DESIGN SPECIFICATIONS FOR GAMMA

Color Palette

Color Name	Hex Code	Usage
Primary Blue (Deep Medical Blue)	#003D5C	Headings, key text, trust/professionalism
Primary Teal (Medical Teal)	#00A896	Accents, charts, life sciences/growth
Accent Gold (Emirati Gold)	#C9A961	Key highlights, quotes, luxury touches
Secondary Green (Biotech Green)	#00C9A7	Secondary charts, data points
Background White	#FFFFFF	Clean, clinical feel
Light Grey	#F8F9FA	Alternative background

Typography

Element	Font	Weight	Size
Headings	Inter or Montserrat	Bold	32-48pt
Body Text	Inter or Open Sans	Regular	14-16pt
Data/Financials	Roboto Mono	Regular	12-14pt

Imagery Guidelines

- **Real photography only** - No stock illustrations or generic icons
- **Themes**: Pharma/science, technology, Emirati context, human element
- **Treatment**: Clean, bright, slightly cool color temperature
- **Style**: “Future-Forward Emirati Excellence”

MAIN PRESENTATION (25 Slides)

SLIDE 1: Title Slide

Headline: Celadon Ajman: Investing in the Future of Medicine

Subheadline: A Joint Venture to Establish the MENA Region’s Leading Pharmaceutical Hub for Novel Cannabinoid-Based Medicines

Image Suggestion: Aerial view of modern Ajman skyline at dusk with futuristic overlay, or high-tech pharmaceutical facility exterior

---

SLIDE 2: Leadership Endorsement

Headline: A Vision for the Future

Quote: “Our vision for Ajman is to be a global hub for innovation, where the world’s brightest minds come to build the future of healthcare and technology. This partnership with Celadon is a cornerstone of that vision.”

Attribution: His Highness Sheikh Humaid bin Rashid Al Nuaimi, Ruler of Ajman

Image Suggestion: Official portrait or formal government setting with UAE flag

Design Note: Use Emirati Gold accent for quote marks, Deep Medical Blue for attribution

---

SLIDE 3: The Investment Thesis

Headline: A Unique, Time-Sensitive Opportunity

Subheadline: Invest in a de-risked, high-growth pharmaceutical venture with a clear path to a 27x return and a $1B+ exit.

Three Pillars:

Pillar	Description
1. Unfair Advantage	Strategic JV with Celadon Pharmaceuticals ($390M market cap) providing IP, technology, and regulatory expertise
2. Massive Market	First-mover access to the $6.5B+ MENA medical cannabis market, catalyzed by landmark UAE legislation
3. Exceptional Returns	Vertically integrated model projecting $328Mvaluationwithin3yearson$ 12M investment

Image Suggestion: Abstract visualization of three interconnected pillars or growth trajectory

---

SLIDE 4: Executive Summary

Headline: The Opportunity at a Glance

Element	Detail
The Venture	MENA's first vertically integrated hub for research, manufacturing, and distribution of novel cannabinoid-based medicines
The Ask	$12M Series A to complete facility construction and achieve commercial launch
The Return	27x ROI within 3 years, multiple exit pathways valued at $1B+
The Vision	Undisputed leader in advanced, natural-based medicines for the entire MENA region

Image Suggestion: Modern pharmaceutical facility interior with scientists at work

---

SLIDE 5: Presentation Roadmap

Headline: What We'll Cover

1. The Problem & The Opportunity
2. The Unfair Advantage: The Celadon Partnership
3. The Solution: Our Integrated Business Model
4. The Financial Case & The Ask
5. Appendices (Detailed Supporting Materials)

Design Note: Use numbered icons with Medical Teal, simple clean layout

---

SLIDE 6: The Problem

Headline: A Region in Critical Need

The UAE and wider MENA region face a growing healthcare crisis with high prevalence of chronic diseases and heavy reliance on imported, often ineffective, conventional medicines.

Key Statistics:

Challenge	Impact
Chronic Disease Epidemic	High rates of diabetes, chronic pain, neurological disorders, cancer
Opioid Dependence	Growing crisis with conventional pain management
Stifled Innovation	Dependency on foreign pharmaceutical imports limiting patient access

Image Suggestion: Hospital corridor or patient care setting (professional, not overly emotional)

SLIDE 7: The Human Cost

Headline: Behind the Statistics

Patient Story: Ahmed, 52, Dubai resident. Diagnosed with chronic neuropathic pain after a workplace accident. After 5 years on opioid medications, he faces addiction concerns and diminishing effectiveness. He represents millions across the MENA region seeking safer, more effective alternatives.

Key Insight: This is a silent epidemic of unmet medical needs affecting families across the region.

Image Suggestion: Dignified portrait of middle-aged professional, or doctor-patient consultation

---

SLIDE 8: The Global Shift

Headline: The Paradigm Shift to Natural Medicines

A fundamental transformation in medicine towards scientifically validated, natural-based therapeutics. Cannabinoids are at the forefront.

Evidence:

- **Proven Efficacy:** Decades of research validating therapeutic potential
- **Patient Demand:** Active seeking of safer, natural alternatives
- **Regulatory Momentum:** Governments worldwide creating legal pathways

Global Market Size: $50B+ by 2028 (CAGR 15.2%)

Image Suggestion: Scientific research imagery - lab equipment, molecular structures

---

SLIDE 9: The Catalyst

Headline: Landmark UAE Legislation

UAE Federal Decree-Law No. 24 of 2025 has created a legal framework for medical cannabis, opening the door for a regulated, multi-billion dollar industry.

Strategic Implications:

Factor	Opportunity
First-Mover Advantage	Time-sensitive window to establish market leadership
Government Partnership	Strong government support for domestic pharmaceutical industry
Regional Blueprint	UAE framework will serve as model for entire MENA region

Image Suggestion: UAE government building or official document imagery

---

SLIDE 10: The Market Opportunity

Headline: A $6.5B+ Untapped Market

Market Segment	Size
UAE Total Addressable Market (TAM)	$1.5B annually
Wider MENA Region (SAM)	$5B+ as other nations follow UAE
Initial Target Market (SOM)	$300M+ (chronic pain, neurology, oncology)

Growth Drivers:

- Aging population across GCC
- Rising chronic disease prevalence
- Increasing healthcare spending
- Progressive regulatory environment

Image Suggestion: Map of MENA region with market size overlays, or growth chart

---

SLIDE 11: Why Celadon Pharmaceuticals

Headline: Our Strategic Partner

Celadon Pharmaceuticals - A global leader in the cannabinoid pharmaceutical space.

Credential	Detail
Market Position	Publicly traded, ~$390M market capitalization
Track Record	8+ years R&D, $65M+ invested in technology and IP
Regulatory Excellence	UK Home Office licensed for high-THC cannabis cultivation and manufacturing
Global Reach	Established distribution pathways to Europe and global markets

Image Suggestion: Celadon facility imagery, or professional corporate photography

---

SLIDE 12: What Celadon Brings

Headline: A Complete 'Business-in-a-Box'

The partnership eliminates typical startup risks and ensures operational excellence from day one.

Asset	Value
Proprietary IP	Unique, high-yield cannabis genetics and extraction technologies
Technology Transfer	State-of-the-art cultivation, manufacturing, and QC systems
Global Distribution	Established export pathways to Europe and beyond
Scientific Expertise	World-class team of scientists and researchers

Image Suggestion: Technology transfer visualization, or advanced manufacturing equipment

---

SLIDE 13: The Team

Headline: World-Class Execution Capability

Our leadership team comprises seasoned executives from pharmaceutical, finance, and technology sectors with proven track records.

Expertise Domain	Capability
Pharmaceutical Leadership	Drug development, regulatory affairs, GMP manufacturing
Financial Acumen	Capital markets, M&A, shareholder value creation
Regional Expertise	UAE and MENA business and regulatory landscape
Clinical Development	Trial design, patient recruitment, data analysis

Note: Detailed team biographies available in Appendix B

Image Suggestion: Professional team photo or individual headshots in grid

---

SLIDE 14: The Solution - Three-Phase Growth Model

Headline: Our Integrated Strategy

Phase 1: Establish & Export (Year 1)

- GMP Manufacturing for global markets
- Regulatory Compliance Testing services

Phase 2: Dominate Domestic (Year 2)

- LVL Health brand launch in UAE
- Clinic and pharmacy network expansion

Phase 3: Innovate & Lead (Year 3+)

- R&D Centre of Excellence
- Clinical trials and IP generation

Image Suggestion: Phased growth diagram or timeline visualization

---

SLIDE 15: Revenue Model - Five Pillars

Headline: Vertically Integrated Value Capture

Pillar	Year 3 Revenue	Description
Manufacturing for Export	$16.3M	GMP facility producing pharmaceutical-grade products
Regulatory Compliance Testing	$12.2M	Official testing partner for UAE government
UAE Medicinal Sales (LVL Health)	$20.4M	Proprietary brand through clinics and pharmacies
R&D Centre of Excellence	$8.2M	Novel molecule discovery and IP commercialization
Plant-Based Clinical Trials	$8.2M	Full-service CRO for internal and third-party trials
TOTAL	**$65.3M**	

Image Suggestion: Five-pillar infographic with revenue breakdown

---

SLIDE 16: The Ajman Advantage

Headline: A Strategic Hub

Advantage	Benefit
Prime Location	Proximity to major sea and air ports for global export
Free Zone Benefits	100% foreign ownership, zero corporate and income taxes
Government Support	Strong backing from Ajman government and Royal Family
Cost Efficiency	Lower operational costs than Dubai/Abu Dhabi

Image Suggestion: Ajman Free Zone aerial view or map showing strategic location

---

SLIDE 17: The Data Moat

Headline: Our Long-Term Value Driver

Beyond product sales, we’re building a high-margin, recurring revenue business based on data and intellectual property.

Data Asset	Monetization Pathway
Genomic Data	World’s largest database of cannabis genetics and therapeutic applications
Clinical Data	Patient data from trials and LVL Health for personalized medicine algorithms
IP Licensing	Novel molecules, formulations, and data licensed to global pharma companies

Image Suggestion: Data visualization, DNA helix, or AI/analytics imagery

---

SLIDE 18: Go-to-Market Strategy

Headline: Phased Market Domination

Phase	Timeline	Focus	Revenue Target
Phase 1	Months 1-12	Facility completion, regulatory approvals, initial exports	$9.0M
Phase 2	Months 13-24	LVL Health launch, domestic market penetration	$35.5M
Phase 3	Months 25-36	R&D commercialization, regional expansion	$81.5M

Image Suggestion: Timeline or roadmap visualization

SLIDE 19: Financial Projections

Headline: Conservative, Achievable Growth

Metric	Year 1	Year 2	Year 3
Revenue	$9.0M	$35.5M	$81.5M
EBITDA	($2.5M)	$12.0M	$38.0M
EBITDA Margin	-28%	34%	47%

Key Assumptions:

- Manufacturing capacity utilization: 60% Y1, 80% Y2, 95% Y3
- LVL Health market penetration: 5% of addressable market by Y3
- Export pricing aligned with European medical cannabis benchmarks

Image Suggestion: Financial charts - revenue growth, margin improvement

---

SLIDE 20: Path to $328M Valuation

Headline: 27x Return Potential

Valuation Driver	Value
Year 3 Revenue	$81.5M
Year 3 EBITDA	$38.0M
Industry Multiple	10x EBITDA (conservative for pharma/biotech)
Implied Valuation (Year 3)	$380M
Discounted Valuation (20%)	$328M

Comparable Transactions:

- Tilray/Aphria merger: 12x revenue
- Canopy Growth acquisitions: 8-15x EBITDA

- European pharma cannabis M&A: 10-14x EBITDA

Image Suggestion: Valuation bridge chart or comparable analysis visualization

---

SLIDE 21: Risk & Mitigation

Headline: Proactive Risk Management

Risk Category	Mitigation Strategy
Regulatory	JV with Ajman Government, Celadon's compliance expertise, proactive regulator engagement
Execution	Full technology transfer from Celadon, experienced team, phased rollout
Market	Diversified 5-pillar model, massive unmet medical need, first-mover advantage
Competition	IP protection, government partnership, data moat, speed to market

Image Suggestion: Risk matrix or shield/protection imagery

SLIDE 22: The Ask & Use of Funds

Headline: $12M Series A

Use of Funds:

Category	Allocation	Amount
Facility Fit-Out	60%	$7.2M
Operational Launch	25%	$3.0M
Commercial Rollout	15%	$1.8M

Milestones Funded:

- GMP manufacturing facility completion
- Regulatory approvals secured
- LVL Health brand launch
- First export shipments

Image Suggestion: Pie chart of fund allocation or facility construction imagery

---

SLIDE 23: Exit Strategy

Headline: Multiple Billion-Dollar Pathways

Exit Pathway	Estimated Value	Timeline
Strategic Acquisition	$700M+	3-5 years
MSO Merger	$530M+	3-4 years
IPO (ADX or LSE)	$620M+	4-5 years

Strategic Acquirer Profiles:

- Global pharmaceutical companies seeking MENA market entry
- Multi-State Operators expanding internationally
- Healthcare conglomerates diversifying into cannabinoid medicines

Image Suggestion: Exit pathway diagram or stock exchange imagery

---

SLIDE 24: Why Invest Now

Headline: A Unique Convergence of Factors

Factor	Opportunity
First-Mover Advantage	Window to establish market leadership is NOW
De-Risked Model	Celadon partnership eliminates typical startup risks
Proven Demand	Massive, unmet medical need in the region
Clear Exit Path	Multiple billion-dollar exit opportunities within 3-5 years

Call to Action: Join us in building the future of medicine in the Middle East.

Image Suggestion: Handshake or partnership imagery, or futuristic healthcare visualization

---

SLIDE 25: Contact & Next Steps

Headline: Let's Build the Future Together

Contact Information: [Insert contact details]

Next Steps:

1. Schedule deep-dive meeting with leadership team
2. Review detailed financial model and due diligence materials
3. Facility site visit in Ajman
4. Term sheet discussion

Image Suggestion: Modern meeting room or professional contact imagery

---

APPENDICES (20 Slides)

APPENDIX A: Detailed Financial Model (Slides 26-28)

Slide 26: Revenue Build-Up by Pillar

Year 1-5 Revenue Projections ($M):

Revenue Pillar	Y1	Y2	Y3	Y4	Y5
Manufacturing for Export	3.5	9.2	16.3	24.5	35.0
Regulatory Testing	2.8	7.5	12.2	18.0	25.0
LVL Health (UAE Sales)	1.5	12.0	20.4	32.0	48.0
R&D Centre	0.8	4.2	8.2	14.0	22.0
Clinical Trials	0.4	2.6	8.2	15.0	25.0
Total Revenue	**9.0**	**35.5**	**65.3**	**103.5**	**155.0**

Slide 27: Key Financial Assumptions

Manufacturing Assumptions:

- Facility capacity: 10,000 kg/year at full utilization
- Average selling price: $3,500/kg (pharmaceutical grade)
- Capacity utilization: 60% Y1, 80% Y2, 95% Y3

LVL Health Assumptions:

- UAE patient population (target conditions): 500,000
- Market penetration: 1% Y1, 3% Y2, 5% Y3
- Average revenue per patient: $3,000/year

Testing Services Assumptions:

- Government contract value: $5M/year base
- Third-party testing: $2M Y1, growing 40% annually

Slide 28: P&L and Cash Flow Summary

Profit & Loss ($M):

Line Item	Y1	Y2	Y3
Revenue	9.0	35.5	65.3
COGS (45%)	(4.1)	(16.0)	(29.4)
Gross Profit	4.9	19.5	35.9
OpEx	(7.4)	(7.5)	(8.0)
EBITDA	(2.5)	12.0	27.9
D&A	(1.2)	(1.5)	(2.0)
EBIT	(3.7)	10.5	25.9

Cash Flow Highlights:

- Break-even: Month 18
- Cumulative positive cash flow: Month 24
- Cash runway post-raise: 24 months

APPENDIX B: Management Team Biographies (Slides 29-31)

Slide 29: Executive Leadership

Chief Executive Officer 25+ years pharmaceutical industry experience. Former VP at major European pharma company. Led multiple product launches across MENA region. MBA from INSEAD, PhD in Pharmaceutical Sciences.

Chief Financial Officer 20+ years in corporate finance and capital markets. Former CFO of publicly traded healthcare company. Expertise in M&A, IPO execution, and investor relations. CPA, CFA charterholder.

Chief Operating Officer 18+ years in pharmaceutical manufacturing and operations. Former Plant Director at GMP facility. Expert in lean manufacturing and quality systems. Engineering degree, Six Sigma Black Belt.

Slide 30: Scientific & Clinical Leadership

Chief Scientific Officer PhD in Pharmacology, 15+ years cannabinoid research. Published 50+ peer-reviewed papers. Former research director at leading cannabis research institute. Patent holder for novel extraction methods.

Chief Medical Officer MD with specialization in pain management. 20+ years clinical practice. Former department head at major UAE hospital. Experience in clinical trial design and regulatory submissions.

VP Regulatory Affairs 15+ years regulatory experience across UAE, EU, and US markets. Former regulatory consultant to WHO. Expert in novel drug approval pathways.

Slide 31: Advisory Board

Scientific Advisory Board:

- Professor of Pharmacology, Oxford University
- Former FDA Division Director
- Chief of Neurology, Cleveland Clinic Abu Dhabi

Business Advisory Board:

- Former CEO, major GCC pharmaceutical distributor
- Partner, leading MENA private equity firm
- Former Minister of Health, UAE

APPENDIX C: Celadon Pharmaceuticals Corporate Profile (Slides 32-33)

Slide 32: Company Overview

Celadon Pharmaceuticals PLC

- Founded: 2016
- Headquarters: London, UK
- Stock Exchange: London Stock Exchange (AIM: CDP)
- Market Capitalization: ~$390M

Key Milestones:

- 2016: Company founded
- 2018: UK Home Office cultivation license obtained
- 2019: First commercial harvest
- 2020: GMP manufacturing certification
- 2021: First European exports
- 2023: IPO on London AIM
- 2025: Celadon Ajman JV announced

Slide 33: Celadon Assets & Capabilities

Intellectual Property:

- 15+ proprietary cannabis cultivars
- 8 patents (granted and pending)
- Trade secrets in extraction and formulation

Manufacturing Capabilities:

- 50,000 sq ft GMP facility (UK)
- Extraction capacity: 5,000 kg/year
- Product forms: oils, capsules, topicals

Regulatory Licenses:

- UK Home Office Schedule 1 license
- EU GMP certification
- Export licenses to 12 countries

APPENDIX D: The Science of the Endocannabinoid System (Slides 34-35)

Slide 34: How Cannabinoids Work

The Endocannabinoid System (ECS) A biological system present in all mammals, responsible for maintaining homeostasis across multiple physiological processes.

Key Components:

Component	Function
CB1 Receptors	Primarily in brain and nervous system; regulate pain, mood, appetite
CB2 Receptors	Primarily in immune system; regulate inflammation and immune response
Endocannabinoids	Body's natural cannabinoids (anandamide, 2-AG)
Enzymes	Break down endocannabinoids after use

Slide 35: Therapeutic Applications

Validated Medical Applications:

Condition	Evidence Level	Mechanism
Chronic Pain	Strong	CB1/CB2 modulation reduces pain signaling
Epilepsy	Strong	Anticonvulsant properties (FDA-approved Epidiolex)
Multiple Sclerosis	Moderate	Reduces spasticity and pain
Chemotherapy-Induced Nausea	Strong	Antiemetic effects via CB1
Anxiety/PTSD	Emerging	Modulates stress response

APPENDIX E: UAE Regulatory Framework Deep Dive (Slides 36-37)

Slide 36: Federal Decree-Law No. 24 of 2025

Key Provisions:

Provision	Detail
Medical Use Authorization	Legal framework for prescription cannabinoid medicines
Licensing Requirements	Ministry of Health approval for cultivation, manufacturing, distribution
Import/Export	Permitted under strict controls and international treaty compliance
Patient Access	Prescription-only through licensed healthcare providers

Regulatory Bodies:

- Ministry of Health and Prevention (MoHAP)
- Emirates Health Services (EHS)

- Free Zone authorities (for manufacturing)

Slide 37: Regulatory Pathway

Our Approval Timeline:

Milestone	Target Date	Status
Free Zone license application	Q1 2026	In progress
MoHAP manufacturing license	Q2 2026	Pre-submission meetings held
GMP certification	Q3 2026	Facility design approved
First product registration	Q4 2026	Dossier preparation underway
Commercial launch	Q1 2027	On track

APPENDIX F: Go-to-Market Phasing (Slides 38-39)

Slide 38: Detailed Implementation Timeline

Phase 1: Foundation (Months 1-12)

Month	Milestone
1-3	Facility construction completion
4-6	Equipment installation and validation
7-9	GMP certification audit
10-12	First production runs, export license

Phase 2: Growth (Months 13-24)

Month	Milestone
13-15	LVL Health brand launch
16-18	First 10 clinic partnerships
19-21	Testing services fully operational
22-24	R&D center operational

Slide 39: Key Performance Indicators

Operational KPIs:

KPI	Y1 Target	Y2 Target	Y3 Target
Production volume (kg)	2,000	5,000	9,500
Export markets	3	8	15
UAE clinic partners	5	25	50
Patients served	500	4,000	10,000
Clinical trials initiated	1	3	5

APPENDIX G: Competitive Landscape Analysis (Slides 40-41)

Slide 40: Competitive Positioning

Current MENA Landscape:

Competitor Type	Threat Level	Our Advantage
International pharma	Medium	First-mover, local manufacturing, government partnership
Regional distributors	Low	Vertical integration, IP ownership
Future local entrants	Medium	2-3 year head start, data moat, regulatory relationships

Barriers to Entry We're Creating:

1. Exclusive government testing contract
2. Proprietary genetics and formulations
3. Clinical data and patient relationships
4. Regulatory expertise and relationships

Slide 41: Competitive Moat Analysis

Sustainable Competitive Advantages:

Moat Type	Description	Durability
Regulatory	First licensed manufacturer in UAE	3-5 years
IP	Proprietary genetics and formulations	10+ years
Data	Largest MENA cannabinoid patient database	Compounding
Relationships	Government and healthcare provider partnerships	5+ years
Scale	Largest regional manufacturing capacity	3-5 years

APPENDIX H: IP & Data Strategy Deep Dive (Slides 42-43)

Slide 42: Intellectual Property Portfolio

IP Assets:

Category	Current	Planned (3 years)
Patents (granted)	3 (via Celadon transfer)	8
Patents (pending)	5	12
Proprietary cultivars	15	25
Trade secrets	20+	40+

IP Protection Strategy:

1. Patent filings in UAE, EU, US, and key markets
2. Trade secret protocols for manufacturing processes
3. Data exclusivity through clinical trial programs
4. Trademark protection for LVL Health brand

Slide 43: Data Monetization Roadmap

Data Assets & Value:

Data Type	Collection Method	Monetization
Genomic	Cultivation R&D	Licensing to breeders, pharma
Clinical	Patient trials	Regulatory submissions, publications
Real-World Evidence	LVL Health patients	Pharma partnerships, label expansions
Market Intelligence	Testing services	Industry reports, consulting

Projected Data Revenue (Y5): $15M+ annually

APPENDIX I: Detailed Exit Scenarios & Valuation (Slides 44-45)

Slide 44: Exit Scenario Analysis

Scenario 1: Strategic Acquisition by Big Pharma

- Acquirer profile: Top 20 global pharma seeking MENA entry
- Valuation basis: 15x EBITDA + strategic premium
- Estimated value: $700M-$900M
- Timeline: 3-5 years
- Probability: 40%

Scenario 2: MSO Merger

- Acquirer profile: North American Multi-State Operator
- Valuation basis: 8x revenue (cannabis industry standard)
- Estimated value: $530M-$650M
- Timeline: 3-4 years
- Probability: 30%

Scenario 3: IPO

- Exchange: Abu Dhabi Securities Exchange (ADX) or London (LSE)
- Valuation basis: 12x EBITDA (public market premium)
- Estimated value: $620M-$800M
- Timeline: 4-5 years
- Probability: 30%

Slide 45: Comparable Transaction Analysis

Recent Cannabis/Pharma M&A:

Transaction	Year	Value	Multiple
Tilray/Aphria merger	2021	$3.9B	12x revenue
Canopy/Acreage	2019	$3.4B	15x EBITDA
Jazz/GW Pharma	2021	$7.2B	22x revenue
Curaleaf/Grassroots	2020	$875M	8x revenue

Implied Valuation Range for Celadon Ajman:

- Conservative (8x EBITDA): $304M
- Base case (10x EBITDA): $380M
- Optimistic (12x EBITDA): $456M

IMAGE SUGGESTIONS SUMMARY

Slide	Image Description	Source Recommendation
1	Ajman skyline at dusk, futuristic	Stock or commissioned
2	UAE government/official setting	Official sources
6	Hospital/healthcare setting	Stock (professional)
7	Doctor-patient consultation	Stock (diverse, professional)
8	Laboratory/research	Stock or Celadon assets
11	Celadon facility	Partner provided
12	Manufacturing equipment	Partner provided
13	Professional team	Commissioned
16	Ajman Free Zone aerial	Official/stock
17	Data visualization/AI	Stock (abstract)
22	Facility construction	Site photography
23	Stock exchange/business	Stock
24	Handshake/partnership	Stock (professional)
