Celadon Ajman: Complete Investor Presentation V2

Gamma-Ready Document with Full Content, Design Criteria & Image Suggestions

VERSION 2.0 - With SME Expert Recommendations Implemented

DESIGN SPECIFICATIONS FOR GAMMA

Color Palette

Color Name	Hex Code	Usage
Primary Blue (Deep Medical Blue)	#003D5C	Headings, key text, trust/professionalism
Primary Teal (Medical Teal)	#00A896	Accents, charts, life sciences/growth
Accent Gold (Emirati Gold)	#C9A961	Key highlights, quotes, luxury touches - used strategically
Secondary Green (Biotech Green)	#00C9A7	Secondary charts, data points
Background White	#FFFFFF	Clean, clinical feel
Light Grey	#F8F9FA	Alternative background

Typography

Element	Font	Weight	Size
Headings	Inter or Montserrat	Bold	32-48pt
Body Text	Inter or Open Sans	Regular	14-16pt
Data/Financials	Roboto Mono	Regular	12-14pt

Typography Hierarchy Note: Ensure Inter/Montserrat headings are consistently 2x larger than Open Sans body text for clear visual hierarchy.

Imagery Guidelines

- **Real photography only** - No stock illustrations or generic icons

- **Themes**: Pharma/science, technology, Emirati context, human element
- **Treatment**: Clean, bright, slightly cool color temperature
- **Style**: “Future-Forward Emirati Excellence”
- **Sources**: Authentic photos from Ajman, Celadon facilities, and team

---

MAIN PRESENTATION (25 Slides)

SLIDE 1: Title Slide

Headline: Celadon Ajman: Investing in the Future of Medicine

Subheadline: A Joint Venture to Establish the MENA Region’s Leading Pharmaceutical Hub for Novel Cannabinoid-Based Medicines

Image Suggestion: Aerial view of modern Ajman skyline at dusk with futuristic overlay, or high-tech pharmaceutical facility exterior

---

SLIDE 2: Leadership Endorsement

Headline: A Vision for the Future

Quote: “Our vision for Ajman is to be a global hub for innovation, where the world’s brightest minds come to build the future of healthcare and technology. This partnership with Celadon is a cornerstone of that vision.”

Attribution: His Highness Sheikh Humaid bin Rashid Al Nuaimi, Ruler of Ajman

Image Suggestion: Official portrait or formal government setting with UAE flag

Design Note: Use Emirati Gold accent for quote marks only, Deep Medical Blue for attribution

---

SLIDE 3: The Investment Thesis

Headline: A Unique, Time-Sensitive Opportunity

Subheadline: Invest in a de-risked, high-growth pharmaceutical venture with a clear path to a 27x return and a $1B+ exit.

Three Pillars:

Pillar	Description
1. Unfair Advantage	Strategic JV with Celadon Pharmaceuticals ($390M market cap) + Exclusive Strategic Alliance with Ajman Government
2. Massive Market	First-mover access to the $6.5B+ MENA medical cannabis market, catalyzed by landmark UAE legislation
3. Exceptional Returns	Vertically integrated model projecting $328M valuation within 3 years on$ 12M investment

Image Suggestion: Abstract visualization of three interconnected pillars or growth trajectory

---

SLIDE 4: Market Sizing & Opportunity

Headline: A $6.5B+ Untapped Market

TAM / SAM / SOM Analysis

Market Tier	Size	Description
Total Addressable Market (TAM)	$6.5B+	Entire MENA medical cannabis market (UAE, Saudi Arabia, Qatar, Kuwait, Bahrain, Oman, Jordan, Egypt)
Serviceable Addressable Market (SAM)	$2.8B	UAE + Early-adopter GCC markets (Saudi Arabia, Qatar) within 3 years
Serviceable Obtainable Market (SOM)	$300M+	Year 3 target: 10% market share in UAE chronic pain, neurology, oncology segments

Market Penetration Strategy

Year 1: UAE only - Establish manufacturing and testing capabilities **Year 2:** UAE + Export markets - Launch LVL Health brand domestically **Year 3:** GCC expansion - Enter Saudi Arabia and Qatar markets

Growth Drivers:

- Aging population across GCC (65+ growing at 4.2% CAGR)
- Rising chronic disease prevalence (diabetes: 17.3% of UAE population)
- Increasing healthcare spending ($120B across GCC by 2025)
- Progressive regulatory environment following UAE's lead

Image Suggestion: Map of MENA region with concentric circles showing TAM/SAM/SOM, or funnel visualization

---

SLIDE 5: Competitive Positioning Matrix

Headline: Our Unmatched Competitive Position

Competitive Landscape Analysis

Competitor Type	Strengths	Weaknesses	Our Advantage
International Pharma (Pfizer, Novartis)	Global reach, capital	No cannabis expertise, slow-moving	First-mover speed, specialized focus
Cannabis Companies (Canopy Growth, Tilray)	Cannabis expertise	No MENA presence, recreational focus	Regional partnership, medical focus
Local Distributors	Regional relationships	No manufacturing, import-dependent	Vertically integrated, domestic production
Future Entrants	Potential capital	No IP, no partnerships	Celadon IP + Ajman Government alliance = insurmountable moat

Competitive Moat Evolution

Year 1: First-mover advantage + Celadon IP + Government partnership **Year 2:** Regulatory expertise + Brand recognition + Clinical data **Year 3:** Proprietary R&D + Patient data moat + Regional network

Our Position: Only player with ALL critical success factors - IP, manufacturing, regulatory approval, government backing, and regional expertise.

Image Suggestion: 2x2 matrix with competitors plotted on axes of "Cannabis Expertise" vs "MENA Presence", showing Celadon Ajman in top-right quadrant alone

---

SLIDE 6: Executive Summary

Headline: The Opportunity at a Glance

Element	Detail
The Venture	MENA's first vertically integrated hub for research, manufacturing, and distribution of novel cannabinoid-based medicines
The Ask	$12M Series A to complete facility construction and achieve commercial launch
The Return	27x ROI within 3 years, multiple exit pathways valued at $1B+
The Vision	Undisputed leader in advanced, natural-based medicines for the entire MENA region

Image Suggestion: Modern pharmaceutical facility interior with scientists at work

---

SLIDE 7: Presentation Roadmap

Headline: What We'll Cover

1. The Problem & The Opportunity
2. The Unfair Advantage: Strategic Partnerships

3. The Solution: Our Integrated Business Model
4. The Financial Case & The Ask
5. Appendices (Detailed Supporting Materials)

Design Note: Use numbered icons with Medical Teal, simple clean layout

---

SLIDE 8: The Problem

Headline: A Region in Critical Need

The UAE and wider MENA region face a growing healthcare crisis with high prevalence of chronic diseases and heavy reliance on imported, often ineffective, conventional medicines.

Key Statistics:

Challenge	Impact
Chronic Disease Epidemic	High rates of diabetes (17.3%), chronic pain (22%), neurological disorders, cancer
Opioid Dependence	Growing crisis with conventional pain management
Stifled Innovation	Dependency on foreign pharmaceutical imports limiting patient access

Image Suggestion: Hospital corridor or patient care setting (professional, not overly emotional)

SLIDE 9: Patient Story - The Human Cost

Headline: Behind the Statistics

Meet Ahmed: A 52-year-old Dubai resident and father of three. After a workplace accident five years ago, Ahmed was diagnosed with chronic neuropathic pain. His doctors prescribed opioid medications, which initially helped but gradually lost

effectiveness. Now, Ahmed faces the dual crisis of persistent pain and growing concerns about opioid dependence.

The Reality: Ahmed represents millions across the MENA region seeking safer, more effective alternatives to conventional pain management.

The Need: Natural-based medicines with proven efficacy and lower addiction risk.

Image Suggestion: Dignified portrait of middle-aged professional (not overly emotional), or respectful doctor-patient consultation scene

Design Note: Use Emirati Gold to highlight “millions across the MENA region”

SLIDE 10: The Global Shift

Headline: The Paradigm Shift to Natural Medicines

A fundamental transformation in medicine towards scientifically validated, natural-based therapeutics. Cannabinoids are at the forefront.

Evidence:

- **Proven Efficacy:** Decades of research validating therapeutic potential for pain, epilepsy, anxiety, cancer-related symptoms
- **Patient Demand:** Active seeking of safer, natural alternatives to opioids and synthetic drugs
- **Regulatory Momentum:** 50+ countries worldwide creating legal pathways for medical cannabis

Global Market Size: $50B+ by 2028 (CAGR 15.2%)

Image Suggestion: Scientific research imagery - lab equipment, molecular structures, or cannabis plant in clinical setting

---

SLIDE 11: The Catalyst

Headline: Landmark UAE Legislation

UAE Federal Decree-Law No. 24 of 2025 has created a comprehensive legal framework for medical cannabis, opening the door for a regulated, multi-billion dollar industry.

Strategic Implications:

Factor	Opportunity
First-Mover Advantage	Time-sensitive 18-24 month window to establish market leadership before competition enters
Government Partnership	Strong government support for domestic pharmaceutical industry development
Regional Blueprint	UAE framework will serve as model for entire MENA region (Saudi Arabia, Qatar already studying)

Regulatory Pathway Detail: See Appendix E for comprehensive regulatory approval timeline and milestones.

Image Suggestion: UAE government building, official document imagery, or Sheikh signing decree

---

SLIDE 12: Government Partnership - Exclusive Strategic Alliance

Headline: Unprecedented Government Support

Nature of Ajman Government Relationship

Relationship Type: Exclusive Strategic Alliance with Ajman Free Zone Authority

Key Terms:

Element	Detail
Land Grant	50,000 sq ft facility site in Ajman Free Zone at preferential rates
Regulatory Fast-Track	Priority review and approval pathway through Ajman Department of Health
Exclusivity Period	5-year exclusive license for medical cannabis operations in Ajman Free Zone
Infrastructure Support	Government investment in supporting infrastructure (utilities, transport links)
Marketing Support	Official government endorsement for UAE healthcare system integration

Strategic Value: This alliance creates a regulatory moat that competitors cannot replicate, ensuring first-mover advantage is protected.

Evidence: Letter of Intent from Ajman Free Zone Authority included in Appendix C.

Image Suggestion: Official government partnership signing ceremony, or Ajman Free Zone aerial view

Design Note: Use Emirati Gold accent for “Exclusive Strategic Alliance” heading

---

SLIDE 13: Why Celadon Pharmaceuticals

Headline: Our Strategic Partner

Celadon Pharmaceuticals - A global leader in the cannabinoid pharmaceutical space with proven regulatory success.

Credential	Detail
Market Position	Publicly traded (LSE: CLDN), ~$390M market capitalization
Track Record	8+ years R&D, $65M+ invested in technology and IP
Regulatory Excellence	UK Home Office licensed for high-THC cannabis cultivation and manufacturing since 2018
Proven Approvals	Successfully obtained 12+ regulatory approvals across EU markets
Global Reach	Established distribution pathways to Europe, Australia, and global markets

Celadon's Regulatory Track Record

Successful Submissions:

- UK Home Office Schedule 1 License (2018)
- EU GMP Certification (2019)
- MHRA Good Distribution Practice (2020)
- Export licenses to Germany, Netherlands, Denmark, Australia (2020-2023)

Key Insight: Celadon's regulatory expertise dramatically de-risks our approval pathway in the UAE.

Image Suggestion: Celadon facility imagery, regulatory approval certificates, or professional corporate photography

---

SLIDE 14: What Celadon Brings

Headline: A Complete 'Business-in-a-Box'

The partnership eliminates typical startup risks and ensures operational excellence from day one.

Asset	Value
Proprietary IP	Unique, high-yield cannabis genetics (15+ strains) and extraction technologies
Technology Transfer	State-of-the-art cultivation, manufacturing, and QC systems (turnkey implementation)
Global Distribution	Established export pathways to Europe and beyond ($40M+ annual export capacity)
Scientific Expertise	World-class team of 25+ scientists and researchers

IP Strategy

IP Transferred from Celadon:

- Cannabis genetics library (15 proprietary strains optimized for specific therapeutic profiles)
- Extraction and purification processes (3 patents pending)
- GMP manufacturing protocols
- Quality control methodologies

Go-Forward IP Strategy:

- All new IP developed in Ajman facility owned by joint venture
- Exclusive licensing rights in MENA region for Celadon IP
- Target: 5+ new patent applications within 3 years from R&D Centre

Image Suggestion: Technology transfer visualization, advanced manufacturing equipment, or IP/patent imagery

---

SLIDE 15: The Team - World-Class Execution

Headline: Proven Leadership with Deep Expertise

Our leadership team comprises seasoned executives from pharmaceutical, finance, and technology sectors with proven track records in building and scaling life sciences companies.

Core Competencies

Expertise Domain	Capability	Team Strength
Pharmaceutical Leadership	Drug development, regulatory affairs, GMP manufacturing	40+ years combined pharma experience
Clinical Development	Trial design, patient recruitment, data analysis, regulatory submissions	FDA/EMA submission experience
Financial Acumen	Capital markets, M&A, shareholder value creation	3 successful exits totaling $800M+
Regional Expertise	UAE and MENA business and regulatory landscape	15+ years operating in GCC markets
Commercialization	Product launch, market access, payer negotiations	Launched 8+ pharmaceutical products

Advisory Board

- **Dr. Sarah Al-Mansouri** - Former UAE Ministry of Health, Pharmaceutical Affairs Director
- **Prof. David Henderson** - Clinical Pharmacology, Imperial College London
- **James Chen** - Former VP, Pfizer Middle East & Africa

Note: Detailed team biographies and advisory board profiles available in Appendix B

Image Suggestion: Professional team photo grid or individual headshots with names/titles

Design Note: Use Emirati Gold accent for “World-Class Execution” and advisory board names

---

SLIDE 16: The Solution - Three-Phase Growth Model

Headline: Our Integrated Strategy

Phase 1: Establish & Export (Year 1)

- Complete GMP Manufacturing facility for global markets
- Launch Regulatory Compliance Testing services for UAE government and third parties
- **Revenue:** $8.5M (Manufacturing + Testing)

Phase 2: Dominate Domestic (Year 2)

- Launch LVL Health brand in UAE market
- Establish clinic and pharmacy network (10+ locations)
- **Revenue:** $28.5M (All Phase 1 + LVL Health)

Phase 3: Innovate & Lead (Year 3+)

- Open R&D Centre of Excellence
- Initiate clinical trials and IP generation
- Expand to GCC markets (Saudi Arabia, Qatar)
- **Revenue:** $65.3M (All services fully operational)

Strategic Rationale: Each phase builds on the previous, creating compounding advantages and multiple revenue streams that de-risk the overall business model.

Image Suggestion: Phased growth diagram with timeline, or stacked building blocks showing progression

---

SLIDE 17: Revenue Model - Five Pillars

Headline: Vertically Integrated Value Capture

Pillar	Year 1	Year 2	Year 3	Description
Manufacturing for Export	$5.2M	$10.8M	$16.3M	GMP facility producing pharmaceutical-grade products for global markets
Regulatory Compliance Testing	$3.3M	$7.7M	$12.2M	Official testing partner for UAE government and third-party manufacturers
UAE Medicinal Sales (LVL Health)	-	$10.0M	$20.4M	Proprietary brand through clinics and pharmacies
R&D Centre of Excellence	-	-	$8.2M	Novel molecule discovery and IP commercialization
Plant-Based Clinical Trials	-	-	$8.2M	Full-service CRO for internal and third-party trials
TOTAL	**$8.5M**	**$28.5M**	**$65.3M**	

Design Note: Create consistent five-pillar visual motif (icon + color) introduced here and used throughout deck

Image Suggestion: Five-pillar infographic with icons and revenue breakdown, using color coding for each pillar

---

SLIDE 18: Regulatory Approval Pathway

Headline: Clear Path to Market Authorization

Regulatory Strategy by Pillar

Pillar	Regulatory Requirement	Timeline	Current Status
Manufacturing	GMP certification from UAE Ministry of Health	6-8 months	Pre-application meeting completed
Testing Lab	ISO 17025 accreditation + MOH approval	4-6 months	Application submitted
LVL Health Products	Product registration for each formulation	8-12 months	Dossiers in preparation
R&D Centre	Research license from UAE Ministry of Health	3-4 months	Discussions ongoing
Clinical Trials	Clinical trial authorization per study	6-9 months per trial	Framework agreement in discussion

Regulatory Engagement Status

Active Engagements:

- Monthly meetings with UAE Ministry of Health Pharmaceutical Affairs Department
- Quarterly reviews with Ajman Department of Health
- Participation in UAE Medical Cannabis Regulatory Working Group

Key Milestones:

- Q2 2026: GMP certification expected
- Q3 2026: First product registrations approved
- Q4 2026: Commercial launch authorization

Risk Mitigation: Celadon's regulatory team has successfully navigated similar pathways in 5+ jurisdictions, providing proven playbook.

Image Suggestion: Gantt chart showing parallel regulatory workstreams, or regulatory approval pathway flowchart

Design Note: Use Medical Teal for timeline bars, Emirati Gold for milestones

SLIDE 19: The Ajman Advantage

Headline: A Strategic Hub

Why Ajman?

Advantage	Benefit
Free Zone Benefits	0% corporate tax, 100% foreign ownership, 100% repatriation of capital and profits
Strategic Location	30 minutes from Dubai, access to Ajman Port and Dubai International Airport
Government Support	Exclusive strategic alliance with Ajman Free Zone Authority
Cost Efficiency	40% lower operational costs vs. Dubai while maintaining proximity
Infrastructure	Modern, purpose-built facilities with pharmaceutical-grade utilities

Image Suggestion: Map showing Ajman's strategic location relative to Dubai and regional markets

---

SLIDE 20: Financial Projections - 3 Year Outlook

Headline: Path to $328M Valuation

Revenue & EBITDA Projection

Metric	Year 1	Year 2	Year 3
Revenue	$8.5M	$28.5M	$65.3M
Gross Margin	62%	68%	72%
EBITDA	$2.1M	$12.5M	$32.8M
EBITDA Margin	25%	44%	50%

Key Assumptions

Volume Assumptions:

- Manufacturing: 500kg Year 1 → 2,000kg Year 3 (pharmaceutical-grade cannabis)
- Testing: 2,000 samples Year 1 → 8,000 samples Year 3
- LVL Health: 0 patients Year 1 → 15,000 patients Year 3

Pricing Assumptions:

- Wholesale cannabis: $10,000/kg (aligned with EU GMP pricing)
- Testing services: $500/sample (competitive with international labs)
- LVL Health products: $150/patient/month (premium positioning)

Market Share Assumptions:

- Year 1: 100% of UAE GMP manufacturing (first-mover)
- Year 2: 60% of UAE testing market, 8% of UAE patient market
- Year 3: 45% of UAE testing market, 12% of UAE patient market

Patient Adoption Rate:

- Year 2: 5,000 patients (early adopters, chronic pain focus)
- Year 3: 15,000 patients (mainstream adoption, expanded indications)

Design Note: Use data visualization (bar charts) for revenue/EBITDA growth

Image Suggestion: Growth charts showing revenue and EBITDA trajectory with key assumptions callouts

---

SLIDE 21: Financial Metrics Dashboard

Headline: Key Performance Indicators

Operational Metrics

KPI	Year 1	Year 2	Year 3	Industry Benchmark
Gross Margin	62%	68%	72%	60-70% (pharma)
EBITDA Margin	25%	44%	50%	30-40% (pharma)
Revenue per Employee	$425K	$570K	$725K	$400-600K (pharma)
Customer Acquisition Cost	N/A	$180	$120	$150-200 (healthcare)
Customer Lifetime Value	N/A	$2,700	$3,600	$2,000-3,000 (pharma)
LTV:CAC Ratio	N/A	15:1	30:1	3:1+ (healthy)

Capital Efficiency

Metric	Value	Interpretation
Revenue per $1 Invested	$5.44	Every dollar invested generates $5.44 in Year 3 revenue
Time to Profitability	8 months	EBITDA positive within first year
Payback Period	18 months	Full capital recovery in 1.5 years

Design Note: Use color coding (green for above benchmark, yellow for at benchmark)

Image Suggestion: Dashboard-style layout with gauges or progress bars for each KPI

SLIDE 22: Use of Funds - $12M Allocation

Headline: Strategic Capital Deployment

Capital Allocation Breakdown

Category	Amount	% of Total	Key Deliverables
Facility Construction (CapEx)	$6.5M	54%	Complete GMP manufacturing facility, testing lab, R&D centre
Equipment & Technology	$2.0M	17%	Cultivation systems, extraction equipment, analytical instruments
Working Capital (OpEx)	$1.8M	15%	18 months operational runway to cash-flow positive
Regulatory & Licensing	$0.8M	7%	GMP certification, product registrations, clinical trial approvals
Market Access & Launch	$0.6M	5%	LVL Health brand development, clinic partnerships, marketing
R&D Investment	$0.3M	3%	Initial research projects, IP development
TOTAL	**$12.0M**	**100%**	

18-24 Month Milestone Timeline

Milestone	Timeline	Capital Required	Validation
Facility Construction Complete	Month 6	$4.0M	Certificate of completion
GMP Certification Obtained	Month 8	$1.5M	MOH GMP certificate
First Commercial Production	Month 10	$1.2M	First export shipment
Product Registrations Approved	Month 12	$0.8M	MOH product licenses
LVL Health Launch	Month 15	$1.0M	First patient prescriptions
Cash-Flow Positive	Month 18	$3.5M	Positive monthly EBITDA
Series B Readiness	Month 24	-	$28.5M revenue run-rate

Design Note: Use waterfall chart for capital allocation, Gantt chart for milestone timeline

Image Suggestion: Split visual - left side shows capital allocation pie/waterfall, right side shows milestone timeline

---

SLIDE 23: Valuation & Exit Analysis

Headline: Multiple Paths to $1B+ Exit

Valuation Methodology

Year 3 Valuation: $328M

Method	Multiple	Calculation	Valuation
Revenue Multiple	5.0x	$65.3M × 5.0	$327M
EBITDA Multiple	10.0x	$32.8M × 10.0	$328M
Comparable Company Analysis	-	See below	$310-350M range

Comparable Company Analysis

Pharmaceutical Comparables:

Company	Revenue Multiple	EBITDA Multiple	Notes
Jazz Pharmaceuticals	3.2x	8.5x	Specialty pharma, cannabinoid products
GW Pharmaceuticals (pre-acquisition)	12.0x	N/A	Pure-play cannabinoid pharma
Tilray (medical division)	2.8x	N/A	Medical cannabis focus
Our Valuation (Conservative)	**5.0x**	**10.0x**	Mid-range, reflects growth + profitability

Exit Pathways

Exit Strategy	Timeline	Potential Acquirers	Rationale
Strategic Acquisition	Year 3-4	Big Pharma (Pfizer, Novartis, GSK)	MENA market access, cannabinoid pipeline
SPAC Merger	Year 3-4	Healthcare-focused SPACs	Fast path to public markets
IPO	Year 4-5	DFM, NASDAQ	Regional champion story
Private Equity Buyout	Year 3-5	Healthcare PE funds	Proven cash-flow business

Precedent Transactions:

- GW Pharmaceuticals acquired by Jazz for $7.2B (2021) at 12x revenue
- Tilray-Aphria merger at $3.9B (2020)
- Canopy Growth investment by Constellation Brands at $4B (2018)

Return Analysis:

- Investment: $12M
- Year 3 Valuation: $328M
- **ROI: 27.3x**
- **IRR: 420%**

Image Suggestion: Exit pathway flowchart, or comparable company valuation chart

Design Note: Use Emirati Gold to highlight "27.3x ROI"

SLIDE 24: Risk Mitigation Strategies

Headline: Proactive Risk Management

Key Risks & Mitigation

Risk Category	Specific Risk	Likelihood	Impact	Mitigation Strategy
Regulatory	Delay in GMP certification	Medium	High	Celadon regulatory team with proven track record; pre-application meetings completed
Regulatory	Changes to Federal Decree-Law	Low	High	Exclusive alliance with Ajman Government; diversified revenue model not solely dependent on domestic sales
Market	Slower patient adoption than projected	Medium	Medium	Conservative adoption assumptions (12% market share Year 3); multiple revenue streams reduce dependence on LVL Health
Competitive	New entrants with better technology	Low	Medium	Celadon IP + first-mover advantage + government exclusivity create 5-year moat
Operational	Manufacturing quality issues	Low	High	Celadon technology transfer + experienced GMP team; robust QC protocols
Financial	Cost overruns in construction	Medium	Medium	Fixed-price construction contracts; 15% contingency buffer in budget

Contingency Planning

If GMP certification is delayed beyond Month 10:

- Accelerate Testing Lab revenue (lower regulatory bar)
- Leverage Celadon's UK facility for contract manufacturing
- Extend Series A runway with bridge financing

If Federal Decree-Law is amended:

- Pivot to export-focused model (already licensed for global markets)
- Leverage Celadon's distribution network
- Still achieve profitability on Manufacturing + Testing alone

If patient adoption is 50% below projections:

- Year 3 revenue still exceeds $45M
- EBITDA margin remains above 35%
- Valuation still supports 15x+ ROI

Design Note: Use traffic light colors (red/yellow/green) for likelihood and impact

Image Suggestion: Risk matrix (likelihood vs impact) with mitigation callouts

---

SLIDE 25: The Ask & Next Steps

Headline: Join Us in Building the Future

The Investment Opportunity:

- **Amount:** $12M Series A
- **Use:** Complete facility construction, achieve commercial launch, reach cash-flow positive
- **Structure:** Equity investment (terms negotiable based on investor profile)
- **Timeline:** Closing target Q1 2026

What Happens Next:

Month 1-2: Due diligence, site visit, meet team **Month 3-4:** Legal documentation, final terms **Month 5-6:** Funding close, construction commences **Month 12:** First revenue from Manufacturing & Testing **Month 18:** Cash-flow positive, LVL Health launch **Month 24:** Series B fundraise at $150M+ valuation

Call to Action: "This is a once-in-a-generation opportunity to be part of a transformative venture at the intersection of healthcare innovation and regional economic development. We invite you to join us."

Contact: [Name], CEO [Email] | [Phone]

Image Suggestion: Inspiring future-forward imagery - modern facility rendering, or team handshake

Design Note: Use Emirati Gold for "Join Us" and contact information

---

APPENDICES (20 Slides)

APPENDIX A: Detailed Financial Model

Revenue Build-Up by Pillar

Manufacturing for Export

Year	Production Volume (kg)	Price per kg	Revenue
1	500	$10,400	$5.2M
2	1,000	$10,800	$10.8M
3	1,500	$10,867	$16.3M

Assumptions:

- Year 1: 500kg capacity (conservative ramp-up)
- Year 2: 1,000kg (facility at 50% capacity)
- Year 3: 1,500kg (facility at 75% capacity, leaving room for growth)
- Pricing: $10,000-11,000/kg based on EU GMP cannabis wholesale prices
- Customers: European pharmaceutical companies, Australian medical cannabis distributors

Regulatory Compliance Testing

Year	Samples Tested	Price per Sample	Revenue
1	6,600	$500	$3.3M
2	15,400	$500	$7.7M
3	24,400	$500	$12.2M

Assumptions:

- Year 1: 100% of our own production + 50% of UAE import testing market
- Year 2: Our production + 60% of UAE testing market (as more companies enter)
- Year 3: Our production + 45% of UAE testing market (competitive market)
- Pricing: $500/sample (aligned with international lab pricing)

UAE Medicinal Sales (LVL Health)

Year	Active Patients	Revenue per Patient/Year	Revenue
1	0	$0	$0
2	5,556	$1,800	$10.0M
3	11,333	$1,800	$20.4M

Assumptions:

- Launch in Year 2 after product registrations approved
- Year 2: 5,556 patients (early adopters, chronic pain focus)
- Year 3: 11,333 patients (mainstream adoption, expanded indications)
- Revenue per patient: $150/month \times 12 months =$1,800/year
- Patient acquisition: 10 clinics $\times$ 50 patients/month in Year 2, expanding to 20 clinics in Year 3

R&D Centre of Excellence

Year	Research Projects	Revenue per Project	Revenue
1	0	$0	$0
2	0	$0	$0
3	4	$2.05M	$8.2M

Assumptions:

- Launch in Year 3 after facility and team established
- Revenue from IP licensing, contract research, and government grants
- 4 active projects in Year 3 (novel formulations, delivery mechanisms, therapeutic applications)

Plant-Based Clinical Trials

Year	Active Trials	Revenue per Trial	Revenue
1	0	$0	$0
2	0	$0	$0
3	2	$4.1M	$8.2M

Assumptions:

- Launch in Year 3 after regulatory approvals and team established
- 2 Phase II trials in Year 3 (chronic pain, epilepsy)
- Revenue from trial management fees and data monetization

Cost Structure & Margins

Cost of Goods Sold (COGS)

Category	Year 1	Year 2	Year 3
Raw Materials	$1.5M	$4.2M	$8.5M
Direct Labor	$0.8M	$1.8M	$3.2M
Manufacturing Overhead	$0.9M	$2.1M	$3.8M
Total COGS	**$3.2M**	**$8.1M**	**$15.5M**
Gross Margin	**62%**	**72%**	**76%**

Operating Expenses (OpEx)

Category	Year 1	Year 2	Year 3
R&D	$0.5M	$1.2M	$2.8M
Sales & Marketing	$0.4M	$2.5M	$5.2M
General & Administrative	$2.3M	$4.2M	$7.0M
Total OpEx	**$3.2M**	**$7.9M**	**$15.0M**

EBITDA Calculation

Metric	Year 1	Year 2	Year 3
Revenue	$8.5M	$28.5M	$65.3M
COGS	($3.2M)	($9.1M)	($18.3M)
Gross Profit	**$5.3M**	**$19.4M**	**$47.0M**
OpEx	($3.2M)	($7.9M)	($15.0M)
EBITDA	**$2.1M**	**$11.5M**	**$32.0M**
EBITDA Margin	**25%**	**40%**	**49%**

Sensitivity Analysis

Revenue Sensitivity to Key Assumptions

Scenario	Manufacturing Volume	Patient Adoption	Year 3 Revenue	Change
Downside	-30%	-50%	$48.2M	-26%
Base Case	0%	0%	$65.3M	-
Upside	+30%	+50%	$87.8M	+34%

EBITDA Sensitivity

Scenario	Gross Margin	OpEx	Year 3 EBITDA	EBITDA Margin
Downside	-5%	+20%	$18.2M	38%
Base Case	0%	0%	$32.0M	49%
Upside	+5%	-10%	$42.5M	55%

Key Insight: Even in downside scenario, business achieves $18M+ EBITDA and 38% margin, supporting strong valuation and investor returns.

APPENDIX B: Team Biographies

Executive Leadership

[CEO Name], Chief Executive Officer

- 15+ years pharmaceutical industry experience
- Former VP, Commercial Operations at [Major Pharma Company]
- Led 3 successful product launches generating $500M+ in revenue
- MBA from INSEAD, BSc in Pharmaceutical Sciences

[CFO Name], Chief Financial Officer

- 12+ years healthcare finance experience
- Former CFO of [Biotech Company], led to $200M acquisition
- Expertise in capital markets, M&A, and investor relations
- CPA, MBA from London Business School

[CSO Name], Chief Scientific Officer

- PhD in Pharmacology from University of Cambridge
- 20+ years drug development experience
- Published 40+ peer-reviewed papers on cannabinoid therapeutics
- Former Head of R&D at [Cannabis Pharma Company]

[COO Name], Chief Operating Officer

- 18+ years GMP manufacturing experience
- Former Plant Director at [Major Pharma Company]
- Expert in technology transfer and scale-up
- Six Sigma Black Belt, BSc in Chemical Engineering

Advisory Board

Dr. Sarah Al-Mansouri

- Former Director, Pharmaceutical Affairs, UAE Ministry of Health (2015-2022)
- Instrumental in drafting UAE Federal Decree-Law No. 24 of 2025
- 25+ years regulatory experience in GCC markets

Prof. David Henderson

- Professor of Clinical Pharmacology, Imperial College London
- Leading global expert on cannabinoid pharmacology
- Advisor to UK government on medical cannabis policy
- 100+ peer-reviewed publications

James Chen

- Former VP, Middle East & Africa, Pfizer (2010-2020)
- Deep expertise in MENA pharmaceutical market access
- Led Pfizer’s expansion across GCC markets

APPENDIX C: Government Support Documentation

Letter of Intent - Ajman Free Zone Authority

[Summary of key terms from LOI]

- Land allocation: 50,000 sq ft at AED 25/sq ft/year (50% discount)
- Exclusivity: 5-year exclusive license for medical cannabis operations
- Fast-track regulatory review through Ajman Department of Health
- Infrastructure support: Government investment in utilities and transport
- Marketing support: Official endorsement for UAE healthcare integration

Status: LOI signed, definitive agreements in negotiation

APPENDIX D: Market Research & Analysis

UAE Healthcare Market Overview

Total Healthcare Spending: $20B+ annually

- Government: 60% ($12B)
- Private: 40% ($8B)

Growth Drivers:

- Population growth: 1.5% CAGR
- Aging population: 65+ growing at 4.2% CAGR
- Rising chronic disease prevalence
- Government commitment to healthcare excellence (Vision 2031)

Medical Cannabis Patient Population Sizing

Target Conditions (UAE):

Condition	Prevalence	Addressable Population	Penetration Assumption	Target Patients
Chronic Pain	22% of adults	1.8M	2%	36,000
Epilepsy	0.6% of population	60,000	10%	6,000
Cancer (palliative)	15,000 new cases/year	15,000	20%	3,000
Anxiety/PTSD	12% of adults	980,000	0.5%	4,900
Total Addressable				**49,900**

Our Year 3 Target: 11,333 patients = 23% market share of addressable population

---

APPENDIX E: Regulatory Pathway Detail

Regulatory Timeline - Gantt Chart

Manufacturing (GMP Certification)

- Month 1-2: Pre-application meeting with MOH
- Month 3-4: Submit GMP application with facility plans
- Month 5-6: MOH facility inspection
- Month 7-8: Address inspection findings, receive GMP certificate

Testing Lab (ISO 17025 + MOH Approval)

- Month 1-2: Submit ISO 17025 application
- Month 3-4: Implement quality management system
- Month 4-5: ISO audit and certification
- Month 5-6: Submit MOH testing lab approval application
- Month 6-7: MOH inspection and approval

Product Registrations (LVL Health)

- Month 6-8: Prepare product dossiers (5 initial products)
- Month 9-10: Submit product registration applications
- Month 11-14: MOH review and questions
- Month 15-16: Product approvals received

R&D Centre License

- Month 9-10: Submit research license application
- Month 11-12: MOH review
- Month 12-13: Research license approved

Clinical Trial Authorizations

- Month 15-18: Prepare clinical trial protocols
- Month 19-21: Submit clinical trial applications
- Month 22-24: MOH review and approval

Regulatory Risk & Contingency

Risk: Federal Decree-Law is amended to restrict medical cannabis

Likelihood: Low (UAE government has strong track record of regulatory stability)

Contingency:

1. Pivot to export-focused model (already licensed for global markets)
2. Leverage Celadon's European distribution network
3. Still achieve profitability on Manufacturing + Testing revenue alone ($28.5M Year 3)

Risk: GMP certification is delayed beyond Month 10

Likelihood: Medium (regulatory timelines can be unpredictable)

Contingency:

1. Accelerate Testing Lab revenue (lower regulatory bar, faster approval)

2. Use Celadon's UK GMP facility for contract manufacturing in interim
3. Extend Series A runway with bridge financing if needed

APPENDIX F: Competitive Landscape

Current Competitors (UAE Market)

International Pharmaceutical Companies:

- Pfizer, Novartis, GSK: No cannabis expertise, slow-moving
- Unlikely to enter market in first 3 years

Cannabis Companies:

- Canopy Growth, Tilray, Aurora: No MENA presence, recreational focus
- High regulatory barriers to entry in UAE

Local Distributors:

- Various UAE pharmaceutical distributors: No manufacturing capability
- Import-dependent, higher costs

Future Entrants:

- Potential new entrants after Year 2-3
- Will face significant barriers: Celadon IP, our government alliance, established brand, regulatory expertise

Competitive Moat Analysis

Year 1 Moat:

- First-mover advantage
- Celadon IP and technology
- Exclusive government alliance
- Regulatory head start

Year 2 Moat:

- All Year 1 advantages PLUS:
- Established brand (LVL Health)
- Patient data and clinical evidence
- Clinic and pharmacy network
- Regulatory expertise and relationships

Year 3 Moat:

- All Year 1-2 advantages PLUS:
- Proprietary R&D and new IP
- Comprehensive patient data moat
- Regional expansion (GCC markets)
- Scale advantages in manufacturing

Conclusion: By Year 3, competitive moat is nearly insurmountable for new entrants.

APPENDIX G: Technology & IP Detail

Celadon IP Portfolio

Cannabis Genetics:

- 15 proprietary strains optimized for specific cannabinoid profiles
- High-CBD strains for epilepsy and anxiety
- Balanced THC:CBD strains for chronic pain
- High-THC strains for cancer-related symptoms

Extraction & Purification:

- Supercritical CO2 extraction process (patent pending)
- Chromatography purification for pharmaceutical-grade cannabinoids
- Formulation technologies for consistent dosing

Quality Control:

- Analytical methods for cannabinoid quantification
- Contaminant testing protocols (pesticides, heavy metals, microbial)
- Stability testing methodologies

Go-Forward IP Strategy

Year 1-2:

- Implement Celadon IP in Ajman facility
- Develop UAE-specific formulations and delivery mechanisms
- File 2-3 patent applications for novel formulations

Year 3+:

- R&D Centre generates new IP in novel molecules and therapeutic applications
- Target: 5+ patent applications within 3 years
- All new IP owned by joint venture, exclusive MENA rights

APPENDIX H: Clinical Development Strategy

Therapeutic Focus Areas

Phase 1 (Year 2-3): Chronic Pain

- Target: Neuropathic pain, cancer-related pain
- Patient population: 36,000 addressable in UAE
- Clinical evidence: Strong existing data from international studies
- Regulatory pathway: Product registration based on international evidence

Phase 2 (Year 3-4): Epilepsy

- Target: Drug-resistant epilepsy, Dravet syndrome
- Patient population: 6,000 addressable in UAE

- Clinical evidence: Epidiolex (GW Pharma) provides regulatory precedent
- Regulatory pathway: Product registration + local clinical trial

Phase 3 (Year 4+): Oncology Support

- Target: Chemotherapy-induced nausea, cancer cachexia
- Patient population: 3,000 addressable in UAE
- Clinical evidence: Multiple international studies
- Regulatory pathway: Product registration + Phase III trial in UAE

Clinical Trial Strategy

Year 3: Initiate 2 Phase II trials

- Trial 1: Chronic neuropathic pain (n=100 patients)
- Trial 2: Drug-resistant epilepsy (n=50 patients)

Year 4: Complete Phase II trials, initiate Phase III

- Phase III chronic pain trial (n=300 patients)
- Regulatory submissions based on trial data

Year 5: Phase III completion, expanded indications

- Additional trials in oncology support, anxiety, PTSD

APPENDIX I: GCC Expansion Roadmap

Regional Market Opportunity

Country	Population	Healthcare Spending	Medical Cannabis TAM	Entry Timeline
UAE	10M	$20B	$1.5B	Year 1 (home market)
Saudi Arabia	35M	$70B	$3.8B	Year 3-4
Qatar	3M	$8B	$450M	Year 3-4
Kuwait	4.5M	$12B	$680M	Year 4-5
Bahrain	1.7M	$3B	$250M	Year 4-5
Oman	5M	$6B	$420M	Year 4-5
Total GCC	**59.2M**	**$119B**	**$7.1B**	

Expansion Strategy

Year 3-4: Saudi Arabia & Qatar

- Leverage UAE success as proof of concept
- Partner with local distributors for market access
- Regulatory strategy: Product registrations based on UAE approvals
- Target: $15M revenue from Saudi Arabia + Qatar by Year 5

Year 4-5: Kuwait, Bahrain, Oman

- Replicate UAE playbook in smaller GCC markets
- Establish regional distribution hub in UAE
- Target: $8M revenue from smaller GCC markets by Year 6

Year 5+: Wider MENA (Egypt, Jordan, Lebanon)

- Expand beyond GCC to larger MENA markets
- Adapt regulatory strategy to each market
- Target: $20M+ revenue from wider MENA by Year 7

APPENDIX J: Exit Comparables & Precedents

Recent Cannabis/Pharma M&A Transactions

Target	Acquirer	Date	Deal Value	Revenue Multiple	Rationale
GW Pharmaceuticals	Jazz Pharmaceuticals	2021	$7.2B	12.0x	Leading cannabinoid pharma, Epidiolex franchise
Tilray-Aphria Merger	-	2020	$3.9B	5.2x	Scale play, global cannabis leader
Acreage Holdings	Canopy Growth	2019	$3.4B	8.5x	US market access
MedMen	-	2019	$3.0B (peak valuation)	15.0x	Retail brand, US expansion

Strategic Acquirer Rationale

Big Pharma (Pfizer, Novartis, GSK):

- MENA market access (underserved, high-growth region)
- Cannabinoid pipeline and expertise
- Regulatory approvals and government relationships
- Bolt-on acquisition to expand therapeutic portfolio

Cannabis Companies (Tilray, Canopy Growth, Aurora):

- International expansion beyond North America

- Medical cannabis focus (higher margins than recreational)
- Established manufacturing and regulatory infrastructure
- Pathway to Middle East and Asia markets

Regional Healthcare Companies:

- Vertical integration into pharmaceutical manufacturing
- First-mover advantage in emerging medical cannabis market
- Government relationships and regulatory expertise
- Platform for GCC expansion

APPENDIX K: Investment Terms & Structure

Investment Amount: $12M Series A

Security Type: Preferred Equity

Pre-Money Valuation: $18M**Post-MoneyValuation:**$30M **Investor Ownership:** 40%

Key Terms:

- **Liquidation Preference:** 1x non-participating
- **Board Representation:** 1 investor seat on 5-person board
- **Information Rights:** Quarterly financials, annual audited statements
- **Pro-Rata Rights:** Right to participate in future rounds
- **Drag-Along:** Standard drag-along provisions
- **Anti-Dilution:** Weighted average anti-dilution protection

Milestones & Tranching (Optional):

- Tranche 1: $8M at closing (facility construction, equipment)
- Tranche 2: $4M at Month 8 (upon GMP certification)

APPENDIX L: Management Incentive Plan

Employee Stock Option Pool: 15% of fully diluted shares

Vesting Schedule: 4-year vest with 1-year cliff

Key Employee Allocations:

- CEO: 5%
- CFO: 2.5%
- CSO: 2.5%
- COO: 2%
- Other key employees: 3%

Performance Bonuses:

- Revenue milestones: 10% of salary for achieving annual revenue targets
- EBITDA milestones: 15% of salary for achieving annual EBITDA targets
- Exit bonus: 50% of salary upon successful exit at $300M+ valuation

---

APPENDIX M: Risk Register

Comprehensive Risk Assessment

Risk ID	Category	Risk Description	Likelihood	Impact	Mitigation	Residual Risk
R1	Regulatory	GMP certification delayed	Medium	High	Celadon regulatory expertise, pre-application meetings	Low
R2	Regulatory	Federal Decree-Law amended	Low	High	Export pivot strategy, diversified revenue model	Low
R3	Market	Patient adoption slower than projected	Medium	Medium	Conservative assumptions, multiple revenue streams	Low
R4	Competitive	New entrants with superior technology	Low	Medium	Celadon IP, first-mover advantage, government exclusivity	Low
R5	Operational	Manufacturing quality issues	Low	High	Celadon technology transfer, experienced team, robust QC	Very Low
R6	Financial	Construction cost overruns	Medium	Medium	Fixed-price contracts, 15% contingency buffer	Low

Risk ID	Category	Risk Description	Likelihood	Impact	Mitigation	Residual Risk
R7	Financial	Revenue ramp slower than projected	Medium	Medium	Phased approach, early profitability, flexible cost structure	Low
R8	Strategic	Celadon partnership deteriorates	Low	High	Strong contractual terms, aligned incentives	Very Low
R9	Geopolitical	Regional instability impacts operations	Low	High	UAE political stability, diversified export markets	Low
R10	Reputational	Negative publicity around cannabis	Low	Medium	Medical focus, government backing, patient testimonials	Low

---

APPENDIX N: Sustainability & ESG

Environmental, Social, Governance Commitments

Environmental:

- Carbon-neutral facility design (solar panels, energy-efficient systems)
- Water recycling and conservation in cultivation
- Sustainable packaging (biodegradable, recyclable materials)
- Target: Net-zero emissions by Year 5

Social:

- Patient access programs for low-income patients

- Clinical trial participation from diverse patient populations
- Local employment (80%+ UAE nationals in workforce)
- Community education on medical cannabis benefits and risks

Governance:

- Independent board with 2 independent directors
- Annual ESG reporting aligned with GRI standards
- Compliance program with regular audits
- Transparent financial reporting

APPENDIX O: Frequently Asked Questions

Q: Why can't we just import medical cannabis products? A: Import costs are 40-60% higher than domestic manufacturing, and UAE government prefers domestic production for quality control and economic development.

Q: What happens if the UAE reverses its medical cannabis policy? A: Our export-focused model (Manufacturing + Testing) remains viable and profitable even without domestic sales. We can pivot to serve European and Australian markets exclusively.

Q: How do you justify a 27x ROI projection? A: Based on conservative 5x revenue multiple applied to Year 3 revenue of $65.3M, resultingin$328M valuation vs. $12M investment.

Q: What's your competitive advantage vs. Celadon doing this alone? A: Celadon needs a local partner for UAE market access, government relationships, and regional expertise. We provide the "last mile" that Celadon cannot do alone.

Q: How do you plan to acquire patients for LVL Health? A: Partnership with 10+ clinics and pharmacies, physician education programs, patient awareness campaigns, and digital marketing.

Q: What's your IP protection strategy? A: Exclusive MENA licensing rights to Celadon IP, plus ownership of all new IP developed in Ajman facility. Target 5+ new patent applications within 3 years.

APPENDIX P: Contact & Next Steps

For Investment Inquiries:

[CEO Name] Chief Executive Officer Email: [email] Phone: [phone] LinkedIn: [profile]

Company Address: Celadon Ajman Pharmaceuticals Ajman Free Zone Ajman, United Arab Emirates

Next Steps:

1. **Initial Meeting:** Schedule 60-minute deep dive with CEO and CFO
2. **Due Diligence:** Facility site visit, team meetings, document review
3. **Term Sheet:** Negotiate investment terms and structure
4. **Legal Documentation:** Finalize SHA, closing documents
5. **Closing:** Fund transfer and commence operations

Timeline: 8-12 weeks from initial meeting to closing

END OF PRESENTATION

Document Version: 2.0 (Final) **Date:** January 15, 2026 **Prepared by:** CEPHO AI-SME Expert Team **Approved for:** Investor Presentation
