Universal Presentation Blueprint v4.0 - Key Structure

Part 1: Configuration Engine (Upfront Inputs)

1.1 Core Strategy & Narrative

- The Governing Thought (single overarching hypothesis)
- The Primary Goal (measurable action for audience)
- The Core Story (fundamental problem and importance)
- The Solution (unique and defensible approach)
- The Founder/Origin Story (compelling “why”)

1.2 Audience & Persuasion

- Audience Persona (goals, pain points, habits)
- Persuasion Strategy (psychological principles)
    - Authority
    - Social Proof
    - Scarcity

1.3 Market & Financials

- Market Opportunity (TAM/SAM/SOM)
- The Moat (3-5 defensible advantages)
- Financial Projections (3-5 year, Revenue, EBITDA)
- The Ask (capital amount, milestones)

1.4 Project Management & Communications

- Risk Register (top 5 risks + mitigation)
- Stakeholder Communications Plan
- Select External Peer Reviewers (Asset Manager, Investment Bank, VC, Family Office)

Part 2: Standard Deck Architectures

2.1 Long-Form Investor Deck (20-25 Slides)

Mandatory 25% imagery rule (at least 6 high-impact visuals)

#	Slide Title	Content Type	Visual?
0	Executive Summary	Situation-Complication-Resolution	N
1	Title Slide	Text & Logo	Y (Hero Image)
2	The Problem	Text & Data	Y (Emotive Image)
3	Current (Failed) Solutions	Text & Icons	N
4	Our Solution	Text & Diagram	Y (Product Showcase)
5	Product Deep Dive	Text & Screenshots/Video	N
6	Market Opportunity (TAM)	Chart & Data	N
7	Why Now? (Market Trends)	Text & Icons	N
8	The Moat (Our Advantage)	3-Column Text	N
9	Business Model	Diagram	N
10	Go-to-Market Strategy	Text & Diagram	N
11	Competitive Landscape	2x2 Matrix or Table	N
12	The Team	Headshots & Bios	Y (Team Photo)
13	The Founder Story	Text & Image	Y (Founder Image)
14	Financial Projections	Chart & Table	N
15	The Ask & Use of Funds	Text & Chart	N
16	The Vision / Future Roadmap	Text & Diagram	Y (Visionary Image)
17	Thank You / Contact	Text	N
A1	Appendix: Financial Model	Table	N
A2	Appendix: Market Data	Table	N
A3	Appendix: Technical Details	Diagram	N

2.2 Short-Form Pitch Deck (10-12 Slides)

For initial pitches and conference presentations.

Part 3: The Agile Sprint Process

Sprint 1: Strategy & Structure

- **Goal:** Finalize strategic foundation and narrative structure
- **Activities:** Create Governing Thought, Audience Persona, Narrative Flow Map, select Deck Architecture
- **Team:** Core Team, Industry Analyst
- **QA Gates:** QA 0 (Thesis Alignment), QA 1 (Structure & Moat)

Sprint 2: Content & Data

- **Goal:** Draft all slide content and verify all data
- **Activities:** Write all text, create charts, verify all claims and sources
- **Team:** Adds Copywriter, SME (Technical), SME (Finance)
- **QA Gates:** QA 2 (Narrative & Cognitive Ease), QA 3 (Technical Verification)

Sprint 3: Design & ESG

- **Goal:** Develop visual identity and ESG narrative
- **Activities:** Select imagery (enforcing 25% rule), apply branding, assess ESG impact
- **Team:** Adds Designer, ESG Analyst
- **QA Gates:** QA 4 (ESG), QA 5 (Visual & Data Viz)

Sprint 4: External Validation & Delivery Prep

- **Goal:** Validate with external perspectives and prepare for delivery
- **Activities:** Conduct peer reviews, write speaker notes, create Q&A document
- **Team:** Adds External Peer Reviewers, Script Writer

- **QA Gates:** QA 6 (External Peer Review), QA 7 (Script & Delivery)

Sprint 5: Finalization & Handoff

- **Goal:** Gain final client approval and deliver project
- **Activities:** Conduct final client review, package all deliverables
- **Team:** Core Team, Client
- **QA Gates:** QA 8 (Client Sign-Off)

Sprint 6: Post-Mortem & Analytics

- **Goal:** Analyze effectiveness and improve blueprint
- **Activities:** Track follow-up rates, gather audience feedback, update playbook
- **Team:** Core Team
- **QA Gates:** None (Analysis Phase)

Part 4: The Automation Pathway

- **Automated Configuration:** Auto-generate project brief, risk register, Digital Twin team selection
- **Automated Drafting:** Generate first draft based on architecture and narrative inputs
- **Automated QA Routing:** Assign review tasks to correct Digital Twins at sprint start
- **Predictive Feedback:** Analyze historical QA data to predict investor questions and suggest improvements

QA Gates Summary

- QA 0: Thesis Alignment
- QA 1: Structure & Moat
- QA 2: Narrative & Cognitive Ease

- QA 3: Technical Verification
- QA 4: ESG
- QA 5: Visual & Data Viz
- QA 6: External Peer Review
- QA 7: Script & Delivery
- QA 8: Client Sign-Off
