Project Genesis - Test Scenario

Purpose

This document provides a mock project walkthrough to test the Project Genesis questionnaire and document generation flow without using real business data.

Test Scenario: “TechFlow Solutions”

Phase 1: Basic Info

Field	Test Value
Company Name	TechFlow Solutions
One-Line Description	AI-powered workflow automation for SMEs
Industry	Technology
Stage	MVP

Phase 2: People

Founder	Role	Email	Shareholding
Alex Thompson	CEO	alex@techflow.test	60%
Sarah Mitchell	CTO	sarah@techflow.test	40%

Advisors:

- Dr. James Wilson (Technical Advisor)
- Maria Garcia (Commercial Advisor)

Phase 3: Business

Field	Test Value
Target Market	UK SMEs with 10-250 employees
Revenue Model	SaaS/Subscription
Current Revenue	£50,000 ARR
Funding Target	£500,000
Use of Funds	Product development (40%), Sales (30%), Operations (30%)

Phase 4: Legal

Field	Test Value
Jurisdiction	United Kingdom
Existing Company	Yes
Existing Contracts	Customer contracts (5), Supplier agreement (1)

Phase 5: Due Diligence

Known Risks:

- Key person dependency on CTO
- Single cloud provider (AWS)
- Limited IP protection

Supplier Dependencies:

- AWS for infrastructure
- Stripe for payments
- SendGrid for email

Regulatory Requirements:

- GDPR compliance

- ICO registration

Expected Outputs

Documents to be Generated:

1. ✅ Non-Disclosure Agreement (NDA)
2. ✅ One-Page Teaser
3. ✅ Two-Pager Summary
4. ✅ Investment Deck (Draft)
5. ✅ Financial Model Template
6. ✅ DCF Valuation Model
7. ✅ Data Room Checklist
8. ✅ Risk Register Template
9. ✅ Articles of Association (Draft) - UK specific
10. ✅ Shareholder Agreement (Draft) - UK specific

Action Items to be Created:

1. Register at Companies House
2. Send NDA for signature
3. Schedule founder call
4. Complete KYC checklist
5. Set up data room
6. Upload logo
7. Open business bank account
8. Register for VAT

Test Checklist

- [ ] Navigate to Project Genesis from sidebar
- [ ] Complete Phase 1 (Basic Info) with test data
- [ ] Complete Phase 2 (People) - add both founders
- [ ] Complete Phase 3 (Business) with test data
- [ ] Complete Phase 4 (Legal) with test data
- [ ] Complete Phase 5 (Due Diligence) with test data
- [ ] Click “Generate Documents” on Phase 6
- [ ] Verify all 10 documents are generated
- [ ] Verify all 8 action items are created
- [ ] Test document download (mock)
- [ ] Test action item status toggle

Notes for Testing

1. **No real data**: Use only the test values above
2. **Email addresses**: Use .test domain (RFC 2606 reserved)
3. **Amounts**: Use realistic but fictional figures
4. **Timing**: Document generation should take ~5-10 seconds
5. **Reset**: Refresh page to start fresh test

Future Enhancements to Test

- [ ] Explainer video generation
- [ ] Real document export (PDF/DOCX)
- [ ] SignNow/DocuSign integration
- [ ] Calendar integration for scheduling
- [ ] Data room folder creation

- [ ] Brand kit application to documents
